

SHREYU UMAPATHY

NEW YORK, NEW YORK • SHREYUUMAPATHY101@GMAIL.COM • (706)-589-3689 • [LINKEDIN](#) • [PORTFOLIO](#)

Quantitative Health Analyst with an MPH in Epidemiology and Biostatistics and a professional background in real-world data (RWD) analysis, advanced statistical modeling, and regulatory compliance. Proven track record of leveraging R, SAS, and SQL to transform complex healthcare datasets and clinical outcomes into actionable, data-driven insights. Expert in utilizing multivariable regression and predictive modeling to evaluate health trends, manage data quality control, and translate complex statistical findings for cross-functional stakeholders and executive leadership.

Experience

Public Health Data Analyst Intern | Sept 2025 - Feb 2026

Evolutionary Health Group of the National Center for Biotechnology Information | New York City, NY

- Engineered predictive data visualizations and neural network models using R and Python across complex geospatial climate datasets to accurately estimate vector distribution patterns.
- Synthesized and presented modeling findings during weekly multidisciplinary briefs to align predictive data outcomes with current public health literature and inform director-level decision-making.
- Managed data preprocessing, quality controls, and geospatial file transformation pipelines, increasing reproducibility.

Medical Scribe | Dec 2024 - Sept 2025

Weill Cornell – Scribe America | New York City, NY

- Partnered with clinical leadership to optimize healthcare delivery operations across 25+ daily patient encounters; designed structured documentation templates that improved reporting efficiency by 15%.

Research Intern | Jan 2022 - Dec 2022

Augusta University | Augusta, GA

- Developed interactive Tableau dashboards to translate complex behavioral research data into actionable comparisons, facilitating executive decision-making.
- Managed clinical database administration and data cleaning protocols in REDCap, maintaining database integrity and audit histories to ensure readiness for institutional IRB reviews and federal regulatory audits.

Clinical Data Intern | May 2021 - Dec 2021

Augusta University | Augusta, GA

- Managed and cleaned clinical datasets for a national Small Intestinal Cancer regional trends study published in the American College of Gastroenterology (ACG) journal.
- Performed comprehensive database audits and quality control checks to ensure regulatory compliance, partnering with lead biostatisticians to prepare clinical trial datasets for multivariable regression in SAS.

Education

Master's in Public Health - Epidemiology and Biostatistics | June 2026

City University of New York - Graduate School of Public Health & Health Policy | New York City, NY

Graduate Thesis: LLM Health Bias Research | R, statistical modeling, data visualization

- Analyzed large-scale datasets in R and Python to identify and mitigate historical biases within Large Language Models (LLMs) used in clinical decision support.

Fieldwork | Geospatial Forecasting

- Trained machine learning models in Python to forecast environmental drivers of vector-borne disease risk and generated visualizations for policy briefs.

Graduate Certificate in Biomedical Regulatory Sciences (with PharmD Coursework) | Aug 2023 – Dec 2024

University of Georgia | Athens, GA

- Completed certificate focused on FDA regulations, Quality Assurance, and Good Manufacturing Practice (GMP).
- Completed 1+ years of doctoral-level clinical therapeutics and pharmacology coursework as part of the dual Doctor of Pharmacy (PharmD) program before pivoting to health data analytics.

B.S. Neuroscience | May 2022

Georgia State University | Atlanta, GA

Skills & Certifications

- Technical Skills:** R, Python, SAS, SQL, REDCap, Qualtrics, Tableau, Power BI, Epic Systems, Microsoft Excel
- Statistical Analysis:** Multivariable Modeling, Regression, Survey Design, Data Visualization
- Clinical Research:** IRB Applications, FDA Regulations, Literature Reviews
- Certifications:** Human Subjects Research (CITI), International Biomedical Regulatory Sciences (UGA)
